

CAPTURING THE ESSENCE OF PERFECT GRASS

INTRODUCING BOLT, Southwest Greens' newest synthetic grass product innovation.

Bolt, a patented fiber technology offered exclusively through Shaw Industries, brings together the best attributes of grass— aesthetic and durability. Its lightning bolt-shaped angles reflect light for a lower luster and more natural looking lawn—while maintaining a long-lasting solution with far less maintenance. In fact, Bolt's performance grade fibers are so durable it exceeds the most stringent industry requirement for simulated wear by two times.
